Description:

Designed as a follow-up to Volume 1, Volume 2 addresses such important skills as: 1) expanding a basic repertoire of common intermediate-level tunes, 2) learning to use low first position, 3) mastery of bowing down on the beat and corrective slurring, 4) artistic slurring, 5) understanding basic music theory, and 6) learning double-stop backup combinations. Some students who have studied violin or fiddle music before may be able to skip Volume 1 and start with Volume 2, assuming they are proficient at skills such as proper violin and bow placement and can play a small repertoire of fiddle tunes with good tone and intonation. Includes access to an online audio recording.

I am learning to fiddle in my mid 50s, and don't have time for official lessons right now. (Although I did have 4 starter sessions a few years back). These are an awesome set of books, with easily downloaded MP3s of the songs to follow along. I have a music slow downer App for my phone which I use to help hear the notes, as I mostly play by ear. I cast the music to a Bluetooth speaker or my stereo and am all set with an instructor that slows down for me to follow. The phone App can even repeat a certain section of the song only, so you can practice difficult sections over and over until you have it down. But the sheet music is there for each song, also, for those lucky enough to know how to read music. I got both Vol. 1 and Vol. 2, which have a variety of songs and styles, with a little flair but not too much fancy embellishment for us beginners. The set of books is well worth the investment. I still recommend lessons, though. I need to take some more, but am coming along fine with these.
